

About Us

Our roots stem from the renowned DV Group, a company that began its journey more than 6 decades ago in the thriving markets of Ahmedabad. As family driven company, the group, with strong perseverance of its members, ascended from being modest traders into becoming a leading exporter and wholesaler of an extensive line of superior pure spices, dry fruits & tea. With a focus on food safety as its paradigm, the group has developed a reputation for exceptional quality and outstanding service. As a result, DV's products are essential ingredients in flavoring some of the world's most popular food brands.
